2. It is requested that your organization inform the undersigned of the minimum dissemination needs for future Project [ ] reporting at the KH classification level. In addition to indicating the number of copies required, it is also necessary to identify the individual recipients by name and component. While neither the frequency nor the volume of [ ] production at the KH level is predictable at this time in any definite terms, reporting is expected to be only on those developments of major intelligence importance.

4. It would be of considerable assistance if EH reporting originated by your organization would bear a dissemination indicator for Project [ ] whenever the subject matter included appears pertinent to ICBM, AEM or Space Vehicle analysis. Such material will be promptly disseminated by this office to Project [ ]
